

12 August 2026

foodpanda Malaysia Sdn. Bhd.

Kuala Lumpur, Malaysia

Dear Hiring Team,

APPLICATION FOR INTERNSHIP OPPORTUNITY

I am writing to express my interest in an internship opportunity at **foodpanda Malaysia**.

I am currently pursuing a **Bachelor of Information Systems (Hons.) Business Computing** at Universiti Teknologi MARA (UiTM), with a current CGPA of **3.38**. My compulsory internship period is from **14 September 2026 to 18 December 2026 (14 weeks)**.

Throughout my studies, I have gained practical experience in **data analytics, business intelligence, database management, data cleaning and preprocessing, predictive analytics, and web development**. I have worked with tools and technologies such as **Microsoft Power BI, SQL, MySQL, Python, RapidMiner, WEKA, PHP, and HTML**.

Through various academic projects, I have developed dashboards, analysed datasets, built predictive models, and created web-based systems to address practical business problems.

I am particularly interested in joining foodpanda because of its technology-driven and fast-paced business environment. I am interested in opportunities related to **Data Analytics, Business Analysis, Information Systems, Business Intelligence, Operations Analytics, or other technology-related functions**, where I can apply both my technical and business knowledge while gaining valuable industry experience.

I am a responsible and adaptable individual who enjoys learning new skills, solving problems, and working collaboratively with others. I would welcome the opportunity to contribute to foodpanda while learning from experienced professionals and gaining a better understanding of how data and technology support large-scale digital business operations.

Thank you for considering my application. I would greatly appreciate the opportunity to further discuss how my background and skills could contribute to foodpanda during my internship.

Yours sincerely,

Ahmad Khir Rashdan bin Mohamad Shamsudin
