SGS (Malaysia) Sdn. Bhd.

Malaysia

Dear Hiring Team,

APPLICATION FOR INTERNSHIP OPPORTUNITY

I am writing to express my interest in an internship opportunity at **SGS Malaysia**. I am currently pursuing a **Bachelor of Information Systems (Hons.) Business Computing** at Universiti Teknologi MARA (UiTM), with a current CGPA of **3.38**. My compulsory internship period is from **14 September 2026 to 18 December 2026 (14 weeks)**.

Throughout my studies, I have developed practical skills in **data analytics, business intelligence, database management, data cleaning and preprocessing, predictive analytics, and web development**. I have experience using tools and technologies such as **Microsoft Power BI, SQL, MySQL, Python, RapidMiner, WEKA, PHP, and HTML** through various academic projects involving dashboard development, data analysis, predictive modelling, and information system development.

I am particularly interested in internship opportunities related to **Data Analytics, Business Analysis, Information Systems, Business Intelligence, Digitalisation, or other IT-related functions**. I believe an internship at SGS would provide me with valuable exposure to a professional working environment where technology, data, and business processes are used to support effective operations and decision-making.

I am a responsible, adaptable, and detail-oriented individual who is willing to learn and take on new challenges. I enjoy solving problems, analysing information, and working collaboratively with others. I hope to apply the knowledge and skills I have gained throughout my degree while learning from experienced professionals and contributing meaningfully to the team.

Thank you for considering my application. I would greatly appreciate the opportunity to further discuss how my skills and academic background could contribute to SGS during my internship.

Yours sincerely,

Ahmad Khir Rashdan bin Mohamad Shamsudin
